

NurseSpring LLC Cookie Notice

Last updated: September 29, 2026.

This Cookie Notice explains how NurseSpring LLC (“NurseSpring,” “we,” “us,” and “ours”) use cookies and similar technologies, including tracking technologies, when you visit our website at <https://nursespring.com> (“Site”). It explains what these cookies and similar technologies are and why we use them, as well as your rights to control our use of them.

We may update this Cookie Notice from time to time to reflect, for example, changes to the cookies we use or for other operational, legal or regulatory reasons. Please therefore re-visit this Cookie Notice regularly to stay informed about our use of cookies and related technologies.

What are cookies?

Cookies are small data files that are placed on your computer or mobile device when you visit a website or use a platform. Cookies are widely used by websites for functionality, to work more efficiently, as well as to provide reporting information.

Cookies set by NurseSpring are called “first party cookies.” Cookies set by parties other than NurseSpring are called “third party cookies.” Third party cookies enable third party features or functionality, such as interactive content and analytics, to be provided on or through the Site.

What about other tracking technologies, like web beacons?

Cookies are not the only way to recognize or track visitors to a website or platform. We may use other, similar technologies from time to time, like web beacons (sometimes called “tracking pixels” or “clear gifs”). These are tiny graphics files that contain a unique identifier that enable us to recognize when someone has visited our Site. This allows us, for example, to monitor the traffic patterns of users from one page within our Site to another and to improve the performance of our Site. In many instances, these technologies are reliant on cookies to function properly, and so declining cookies will impair their functioning.

What types of personal information are collected through the use of cookies?

Cookies may collect information identifying your computer or browser as well as information relating to your browsing history. The information we obtain through the use of cookies may be combined with other personal information relating to you. The cookies we use collect the following types of information: IP address, geolocation data, and Site usage for analytics. Additional information about the personal information we collect and how we use your personal information is available in our Privacy Policy.

How can I control cookies?

You have the right to decide whether to accept or reject cookies. You can exercise your cookie preferences by clicking on the appropriate opt-out links provided when you visit our Site.

You can also set or amend your web browser controls to accept or refuse cookies. If you choose

to reject cookies, you may still use our Site though your access to some functionality and areas of our Site may be restricted. As the means by which you can refuse cookies through your web browser controls vary from browser to browser, you should visit your browser's help menu for more information.

In addition, most advertising networks offer you a way to opt out of targeted advertising. If you would like to find out more information, please visit <http://www.aboutads.info/choices/> or <http://www.youronlinechoices.com>.

What types of cookies, web beacons, or other tracking technologies do we use?

Our Site may use the following, among others:

Strictly Necessary or Essential Cookies

These cookies are strictly necessary for the Site's proper functionality and cannot be switched off. They are usually only set in response to actions made by you which amount to a request for services, such as setting your privacy preferences or filling in forms. You can set your browser to block or alert you about these cookies, but that will cause some parts of the Site to not work.

Performance Cookies

These cookies are used to enhance the performance and functionality of our Site and allow us to carry out statistical analysis of page use, interactions, and paths a Site visitor takes through the Site. These cookies are not essential to use our Site. However, without these cookies, certain functionality may not be available.

Third Party and Marketing Cookies

We use Google AdSense Advertising. This cookie collects personal information such as your name, which pages you visit on our Site, and how you arrived at our Site.

We use these cookies also to deliver advertisements to you and to track the efficiency of our advertising campaigns. Our third-party advertising partners may use these cookies to build a profile of your interests and deliver relevant advertising on other sites.

We, along with third-party vendors such as Google, use first-party cookies (such as the Google Analytics cookies) and third-party cookies or other third-party identifiers together to compile data regarding user interactions with ad impressions and other ad service functions as they relate to our website. Users can set preferences for how Google advertises to you using the Google Ad Settings page. Alternatively, you can opt out by visiting the Network Advertising Initiative opt out page or permanently using the Google Analytics Opt Out Browser add on.

Where can I get further information?

If you have any questions about our use of cookies or other technologies, please email us at website@nursespring.com.

Cookies that have been installed in the cookie folder of your browser can be deleted. Each

browser has a different procedure to manage settings. Click on any of the browser links below for instructions.
